WHAT, YOU THINK MAYBE I SHOULD HAVE TRANSFORMED INTO HUMUNGOUSAUR?
YOU KNOW, I ACTUALLY THOUGHT ABOUT IT, BUT HE'S WAY TOO--
IT'S NOT ENOUGH THAT YOU SIGNED ON TO JUDGE A BEAUTY PAGEANT, KNOWING FULL WELL THAT WOMEN AREN'T MERELY JUST OBJECTS OF BEAUTY--
SO IS THAT WHY YOU WOULDN'T LET KEVIN COME?
BUT NOW YOU'RE ABUSING THE ULTIMATRIX AND TRANSFORMING INTO ALIENS--JUST TO IMPRESS GIRLS!
AM NOT.
HEY, LADIES!
G-ROSS.
EW... WHAT DIED IN HERE?

HM. MAYBE I SHOULD HAVE TRANSFORMED INTO BIG CHILL?
MAYBE YOU SHOULD HAVE JUST STAYED BEN TENNYSON.
BUT THAT'S NOT ANYWHERE NEAR AS EXCITING.
THEY DIDN'T INVITE SWAMPFIRE OR BIG CHILL OR ANY OF THE OTHER ALIENS TO JUDGE THE PAGEANT.
THEY INVITED BEN.
I GUESS YOU'RE RIGHT.
I AM. NOW COME ON. THE SHOW'S ABOUT TO START.

WELCOME TO THE 37TH ANNUAL MISS TEEN BELLWOOD PAGEANT.
PLEASE GIVE A BIG HAND TO OUR JUDGES.
TV NEWS REPORTER WILL HARANGUE...
...ACTRESS JENNIFER NOCTURNE...
...AND BEN TENNYSON.
NOW LET'S MEET THESE BEAUTIFUL CONTESTANTS!
YES, LET'S!

HI! I'M MIGS...
HM?
AAAAAAAAHH!
AAAAAAAAHH!
THAT'S IT! I'M GOING BACK TO WORKING THE "DAZZLING LITTLE DONKEYS ON ICE" SHOW!

I KNEW I SHOULDN'T BE ANYWHERE YOU ARE. YOU'RE TROUBLE!
MAYBE SO-- BUT I'M ALSO THE ONLY ONE WHO CAN KICK SEVENSEVEN'S BUTT!
BIG CHILL!

UHH.
TIME TO GO ULTIMATE!

ULTIMATE BIG CHILL!

UH-HUH. THAT'S RIGHT.
FLY HOME TO MOMMY!
OKAY, NOW THAT TOTALLY WOULD HAVE IMPRESSED THE GIRLS...

Ben10 Ultimate Alien Data files

Species: Talpaedan

Talpaedans can move through solid earth and rock the way humans walk through air. They are heavily armored and have powerful pneumatic drills built into their forearms, which they can use to create earthquakes, dig tunnels, pummel enemies, and batter buildings, even mountains, down to rubble! Talpaedans have a jackhammer punch, so when they throw just one punch at an enemy, it is like being hit 100 times! Because Talpaedans are from the Andromeda galaxy, they weren't in the Ultimatrix. Ben acquired his Talpaedan form, Armodrillo, when the Ultimatrix sampled the DNA of Andreas, one of five alien fugitives to crash land on Earth, on the run from the villainous Osmosian, Aggregor, who used his ability to absorb matter and energy to siphon all of their powers for himself.

ARMODRILLO

Homeworld: Polana Lūncas

Polana Lūncas is not a planet but an asteroid belt in the Andromeda galaxy—a cluster of irregular chunks of rock the size of small moons—formed when, at some long-forgotten point in the past, the alien species known as Talpaedans jackhammered their own homeworld into pieces! Now the Talpaedans live and work on and within the asteroids that are all that is left of their planet, mining the many precious ores and minerals still to be found there. Beneath the surface of each asteroid are vast and complex mazes of caverns, lined with the Talpaedans' unique luminous symbols that allows them to know exactly where they are at any given point underground.

Species: Orishan

The crab-like Orishan have incredibly tough, red, exoskeleton armor that makes them nearly invulnerable to any attack. They are extremely clever and technologically minded, so are excellent at building and repairing complex machines. Orishan can shoot water from the palms of their hands in tremendously powerful bursts, like fire hoses, to smash through walls, move large objects, and blast away their enemies. As well as being able to make their own water, the Orishan can also control any ambient water. So if there's a river nearby, or even humidity in the air, an Orishan can manipulate it.

Because Orishan are from the Andromeda galaxy, they weren't in the Ultimatrix. Ben acquired his Orishan form, Waterhazard, when the Ultimatrix sampled the DNA of Bivalvan, one of five alien fugitives to crash land on Earth, on the run from the villainous Osmosian, Aggregor, who used his ability to absorb matter and energy to siphon all of their powers for himself.

Homeworld: Kiusana

Kiusana is a small, arid planet located in the Andromeda galaxy. There are two types of weather on Kiusana: hot and hotter. Over sixty percent of this world is desert. Because Orishan are able to extract hydrogen and oxygen from the air and create water as a natural byproduct—like humans expel carbon dioxide when breathing—not only are Orishan able to thrive in this bone-dry climate, but their species is revered by all others on Kiusana for their "magical" powers.

As a result, you can't go anywhere on Kiusana without finding statues, monuments, carvings, and cave paintings dedicated to the wondrous, water-producing Orishan. To all the other species on Kiusana, Orishan are part village shamans, part rockstars.
